Information Security Management System Policy

DOCUMENT REF	VERSION	ISSUE DATE	OWNER
POL-ISMS	1.0	01.10.2026	MEG Offshore Ltd

- We are a user of information systems and modern technologies.
- Our mission is to assist in the acquisition, processing and disclosure of information that is important to our customers, seek and find optimal solutions to meet customer needs while maintaining independent access.
- Information is the asset necessary for our business. That is why we will implement measures to ensure that this information is adequately protected.
- Information security is achieved in our company by implementing a suitable set of measures and mechanisms, which are mainly policies, processes, procedures, organisational structures, software functions and hardware components.
- Measures to ensure adequate information security management system in our company are established, implemented, monitored, reviewed and continuously improved.
- Our goal is to increase the level of data protection, assets and technology needed to meet the interests of our customers and the people we come into contact with and to fulfilling our own requirements.
- The basic safety rules and principles are comprehensively observed throughout the company, especially in the management, operation and development of information systems.
- This policy is binding on all our employees and external collaborators.
